FOR IMMEDIATE RELEASE

**Tracelyn Freeman Recipient of HOPA’s Top 10 Trainee Research Award**

Des Plaines, IL, April 2020 — Tracelyn Freeman, PharmD, PGY2, was presented with HOPA’s Top 10 Trainee Research Award on April 25<sup>th</sup> for her research poster *Hypomethylating Agents with or without Venetoclax in Adult Patients with Acute Myeloid Leukemia*. Tracelyn is a Hematology/Oncology Pharmacy Resident at The James Cancer Hospital at The Ohio State University Wexner Medical Center.

The Top 10 Trainee Research Award is given to a resident, student, or fellow for their outstanding work in Clinical/Translational or Practice Management research. Dr. Freeman was chosen from over 200 trainee poster presenters at HOPA Ahead 2020 Annual Conference.

“Winning the top trainee poster is quite an achievement with the high number of trainee abstracts and posters submitted. In highlighting high-quality research projects, we hope Tracelyn and her peers will be inspired to continue to conduct meaningful research after they complete their training,” says John Bossaer, Chair Annual Conference Abstract Review Subcommittee.

HOPA provides continuing education, advocacy, networking, cutting edge resources, and advancement opportunities to the Oncology Pharmacist community.
